To Who It May Concern,

Re: Letter of Recommendation – IWCD (Construction Managers)
Aspengrove School Athletics Building
7660 Clark Drive, Lantzville, BC V0R 2H0

We are pleased to provide the following testimonial letter for Island West Coast Developments Ltd. based on our recent experience of working together on the Aspengrove School Athletics Building. The Aspengrove School Athletic Building is (approximately) a 16,000 square foot facility with a construction value of $4,000,000 (including site/civil improvements). The building program consists of a full-size gym, change room/locker facilities, fitness room and two multi-purpose classrooms. My company acted as architect and engineers (mechanical and electrical) for the project.

The building construction process was well-managed, and the project was completed generally on time and on budget to a high level of quality. My personal thanks are offered to Savanna Constable (Project Manager) and Mike Grounds (Project Superintendent). Both Savanna and Mike took on a high degree of responsibility for completing the work to a high level of quality and were responsive and attentive throughout the construction process. It was a pleasure to work with Savanna and Mike and we would be pleased to work with them again and unreservedly recommend IWCD to anyone considering working with them.

Yours truly,
OMICRON ARCHITECTURE ENGINEERING CONSTRUCTION LTD.
